

PRIVATE LANGUAGE LESSONS

Personalized Practice and Tutoring (add-on)

Bonjour Language Camps

offers personalized tutoring in each target language.

Our staff includes certified teachers and college education majors who provide 40–50-minute sessions tailored to each camper's needs. We focus on spoken fluency and vocabulary building, but you may also want to confer with your child's counselors or school teachers to determine other areas of focus.

Whether you want your child to get more practice or familiarity with the language, improve reading or writing skills, or encourage conversation, our staff tutors work with each camper to tackle these focus areas to help them build their confidence and skills.

This program is open to all campers ages 3.5–11, at all levels of proficiency.

We offer private sessions and small-group sessions (up to 4 students of similar level). Tutoring integrates seamlessly with our camp schedule. Each camper attends 5-6 activities daily; those enrolled in personalized tutoring spend one of these periods or the quiet time period working with our tutors.

Personalized language tutoring is not included in camp fees and is available as an optional add-on (\$70 for one or \$125 for two lessons) during registration.
