

Atelier de cuisine spécial Thanksgiving Nov 23: Special Thanksgiving Cooking Camp

offered in French only, advanced level, age 7 and up

In a **real commercial kitchen**, we will **bake bread**, make pie crust and **bake pies**, and make other dishes to delight ourselves in preparation for this uniquely American fall holiday. This special camp has limited capacity and is for advanced French speakers.

This day of food preparation begins with **shopping for our ingredients** together. After we select our ingredients, we will bring them to our commercial kitchen, divide into prep and cooking teams, and then get down to serious business.

Campers will cycle in groups through each cooking station (dough and baking, stovetop, and counter prep). Each camper will make all of the recipes, as well as make their own **recipe cards and packaging** with which to transport and offer their foods to their families.

Key language in French includes cooking and baking vocabulary, process language, sequencing language, measurement, ingredients, and time. You will receive a post-camp news sheet with photos, recipes, skills and concepts they learned, and a full vocabulary list.

Atelier de cuisine spécial Thanksgiving
