

## Jan. 15: Light+Shadow

### Shadows, Light & Improv!

We will play with light and shadow through puppetry, as well as act out a traditional story using our own shadow puppets.

We will spend time **playing improv games, making hand shadow animals, and talking about the science of shadows and light.** We will make our own hand and shadow puppets, and play with them using favorite stories as our inspiration.

Key vocabulary in the **target language** depends on your child's language level and may/will include sequencing language, light and shadow vocabulary, transparency and opacity, cause and effect, steps in a process, etc.

**Clothing:** Please check the weather and dress your child appropriately for outdoor play and running/walking. We may be running and playing games outdoors, and walking to and from the park. Depending on your child, you may want to provide a change of clothes (in case of an accident).

### What to bring

1. Please provide the below items in a backpack or bag your child can carry for a short distance (extra clothing will be left in the classroom).
2. Please provide a bag lunch (we provide snacks). Lunches should be **nut-free** and not require refrigeration or reheating.
3. Refillable water bottle
